Greetings from Your Clapham Junction Neighbourhood Policing Team

High Visibility Policing in Your Neighbourhood

Since the beginning of the New Year you may have noticed your local Neighbourhood Policing Team has stepped up high visibility patrols in your area. This is in an effort to further reduce criminal activity in your Neighbourhood.

Statistics have shown that from 26th December 2014 to 20th March 2015 there have been a total of 185 crimes reported in your Neighbourhood. Compared to the same period from 2013 into 2014 where 241 crimes had been reported this is a 23% reduction.

Op Wiggins - Safer Cycle Commuting

Clapham officers continue their fight against cycle crime with bike security marking exercises every Wednesday. Please check the Clapham NPT page on the BTP website to see when the next date is that we will be nearest to you.

In addition, if you are a regular commuter and can show us a season pass or annual travel pass during the marking sessions, we are currently giving away free Gold Standard bike locks.

Anti Social Behaviour – Joint Operations in Kingston

On Thursday 19th and Friday 20th March officers carried out a joint operation with the Metropolitan Police at Kingston Station in a bid to reduce anti social behaviour.

A number of people were stopped by our officers as well as the Metropolitan Police in a joint effort to make the Kingston area safer for the community.

One male was arrested for being drunk and disorderly after having attempted to assault a member of the public. He was taken to spend the night in Kingston Police Station.

Officers ensured the late night traffic made their way through the station to enjoy their night without incident.

Trespass on the Railway and Community Engagement

On Thursday 19th February officers from Clapham Junction attended a rail safety partnership with Network Rail and Brentford FC at Isleworth to engage with the local youth club.

Officers spoke about safety on the railway and gave guidance on how to report crime to those who attended.

The Clapham Neighbourhood Team wanted to teach the youths that trespass on the railway is a serious matter not only because of the legal consequences that may result but more so because of the physical danger present to themselves and others.

The event was a success and the Neighbourhood Team look forward to attending future events to further educate the community.

Rugby…

Officers have been providing operational assistance during the Six Nations both at Twickenham and at Clapham Junction.

Together with our colleagues on the railway, we were able to ensure that large numbers of fans had an enjoyable day and arrived home safely.
