British Transport Police Statistics & Performance Figures – Introduction

This bulletin contains crime and performance statistics for the year 1 April 2005 to 31 March 2006. Where appropriate, a comparison is given for the previous year.

The crime/offence figures are collated from the British Transport Police's computerised crime reporting system, 'PINS'. The recording of crime is not static and the figures represent a snapshot in time, i.e. the state of the system at 31 March 2005 and 2006.

The crime statistics are broken down into the twelve crime categories now used by the British Transport Police to reflect Home Office practice more closely. Crime groups are within two categories, notifiable offences- serious offences reported to the Home Office (crimes in Scotland) - and non-notifiable offences - less serious offences not reported to the Home Office (offences in Scotland). In Scotland, all crimes and offences are reported to the Scottish Executive. They are also broken down for England, Wales and Scotland, and further, in England and Wales, to BTP's six geographical Areas (see map page 5). L Area includes London Underground and Docklands Light Railway.

Crime statistics should be treated with caution. Dramatic fluctuations up or down can be misleading and, if misused, statistics can contribute to the fear of crime. Hundreds of millions of passenger journeys are made safely each year and the statistics should be viewed in that context.

The following points are given for guidance:

1. The 2005/06 violent crime figures include the crimes committed on the Tube system by terrorists in the London bombings on 7 July 2005. These are recorded as murders (39), attempted murders (112) and assaults (280).
2. The Home Office introduced a National Crime Recording Standard (NCRS) that all police forces across England and Wales were required to adopt. The BTP adopted this standard on the 1st April 2002. The basic principles of NCRS are that if on the balance of probability a crime have been committed it is recorded as a crime. The standard has made crime recording more victim focussed.
3. Crime statistics are not always accurate indicators of levels of crime. Police activity to target particular offences, changes in reporting patterns and other factors can affect crime figures.
4. Apparent anomalies, such as more crimes being detected than have been reported, are due to the fact that statistics reflect crimes and detections recorded in the period. Detections may relate to crimes reported in earlier periods.

Policing Plan Objectives & Targets 2005/06

PERFORMANCE 2005/2006			
Target Description	Target	Actual	Target Achieved
Robbery			
Forcewide robbery detection rate in 2004-05 to be at least 29%.	29%	31%	✓
BTP has achieved the detection rate target set for robbery offences in the last three performance years.			
Violent Assaults			
Forcewide detection rate to be at least 38%.	38%	44%	✓
All assaults are classified as priority crime for BTP and are investigated to minimum standards. This approach has ensured success against this target			
Staff Assaults			
Forcewide detection rate to be at least 40%.	40%	46%	✓
Reducing assaults on staff and making the railway a safe place to work is a key objective for BTP. The detection rate achieved this year is pleasing, and BTP will continue to work with the industry to prevent and detect staff assaults.			
Hate Crime			
Forcewide detection rate to be at least 37%.	37%	42%	✓
This target has been achieved for the second year running and this success sends out a clear message that hate crime will not be tolerated on the railway network.			
Graffiti			
Increase the number of offences cleared by a judicial disposal by 4%.	428	576	✓
Success in this area is important as graffiti can have a very negative impact on people who use the railway, and also costs the industry a huge amount of money. The targeting of prolific offenders and continued use of the national graffiti database has contributed to BTP's success this year.			
Low Level Disorder			
Increase the number of offenders receiving a judicial disposal by 5%.	8451	9809	✓
Combating low level disorder is a priority for both BTP and the industry. Performance against this target has been helped by the intelligence-led use of resources to target 'hotspot' areas, and the continued use of Anti-Social Behaviour Orders.			
Football			
Apply for Football Banning Orders in at least 80% all football-related offences.	80%	88%	✓
BTP's commitment to combating football hooliganism is underlined by the achievement of this target. BTP will continue to tackle football disorder on railways to maximise safety for passengers and staff and minimise disruption to railway service.			
Theft of passenger property			
Forcewide detection rate to be at least 4%.	4%	4%	✓
To reduce offences by at least 2%.	2%	16%	✓
BTP has achieved both targets in relation to theft of passenger property. This is as a result of a concerted effort to both target offenders and reduce theft offences, which account for nearly a third of all reported notifiable offences on the railway.			
Route Crime			
Forcewide detection rate to be at least 8%	8%	11%	✓
BTP have achieved this target, which is aimed at detecting perpetrators of the most serious types of route crime offences. This target was achieved through a partnership approach with railway businesses, rail staff and the public.			

PERFORMANCE 2005/2006 CONTINUED			
Target Description	Target	Actual	Target Achieved
Fatality Management			
Average time from receiving a report of a fatal incident to the conclusion of police activity that disrupts train movement on the line will not exceed an average of 90 minutes.	90 minutes	81 minutes	✓
BTP continues to achieve its objective in the area to fatality management. When dealing with BTP's ability to strike a balance between thorough investigation and keeping the railway running is vital in minimising disruption.			
Recruitment of visible ethnic minority staff			
The number of visible ethnic minority staff to be no less than 5.4% of total police strength by 31 March 2006.	5.4%	5.7%	✓
The number of visible ethnic minority officers to be no less than 3.8% of total police officer strength in specialist posts 31 March 2006.	3.8%	3.7%	✗
BTP has achieved its target in relation to visible ethnic minority (VEM) representation and has only very narrowly failed in relation to the VEM specialist post representation. A more diverse work force was recruited during 2005-06 and VEM representation is increasing within BTP.			
Recruitment of female staff			
The number of female officers to be no less than 15.5% of total police officer strength by 31 March 2006.	15.5%	15.8%	✓
The number of female officers to be no less than 15% of total police officer strength in specialist posts 31 March 2006.	15%	12.6%	✗
BTP has achieved the target in relation to overall female representation for the first time this year. The target with regard to female representation in specialist posts has not been achieved, and work to address this area will continue during 2006-2007.
