British Transport Police Statistics & Performance Figures – Introduction

This bulletin contains crime and performance statistics for the year 1 April 2004 to 31 March 2005. Where appropriate, a comparison is given for the previous year.

The crime/offence figures are collated from British Transport Police's computerised crime reporting system, 'PINS'. The recording of crime is not static and the figures represent a snapshot in time, i.e. the state of the system at 31 March 2004 and 2005.

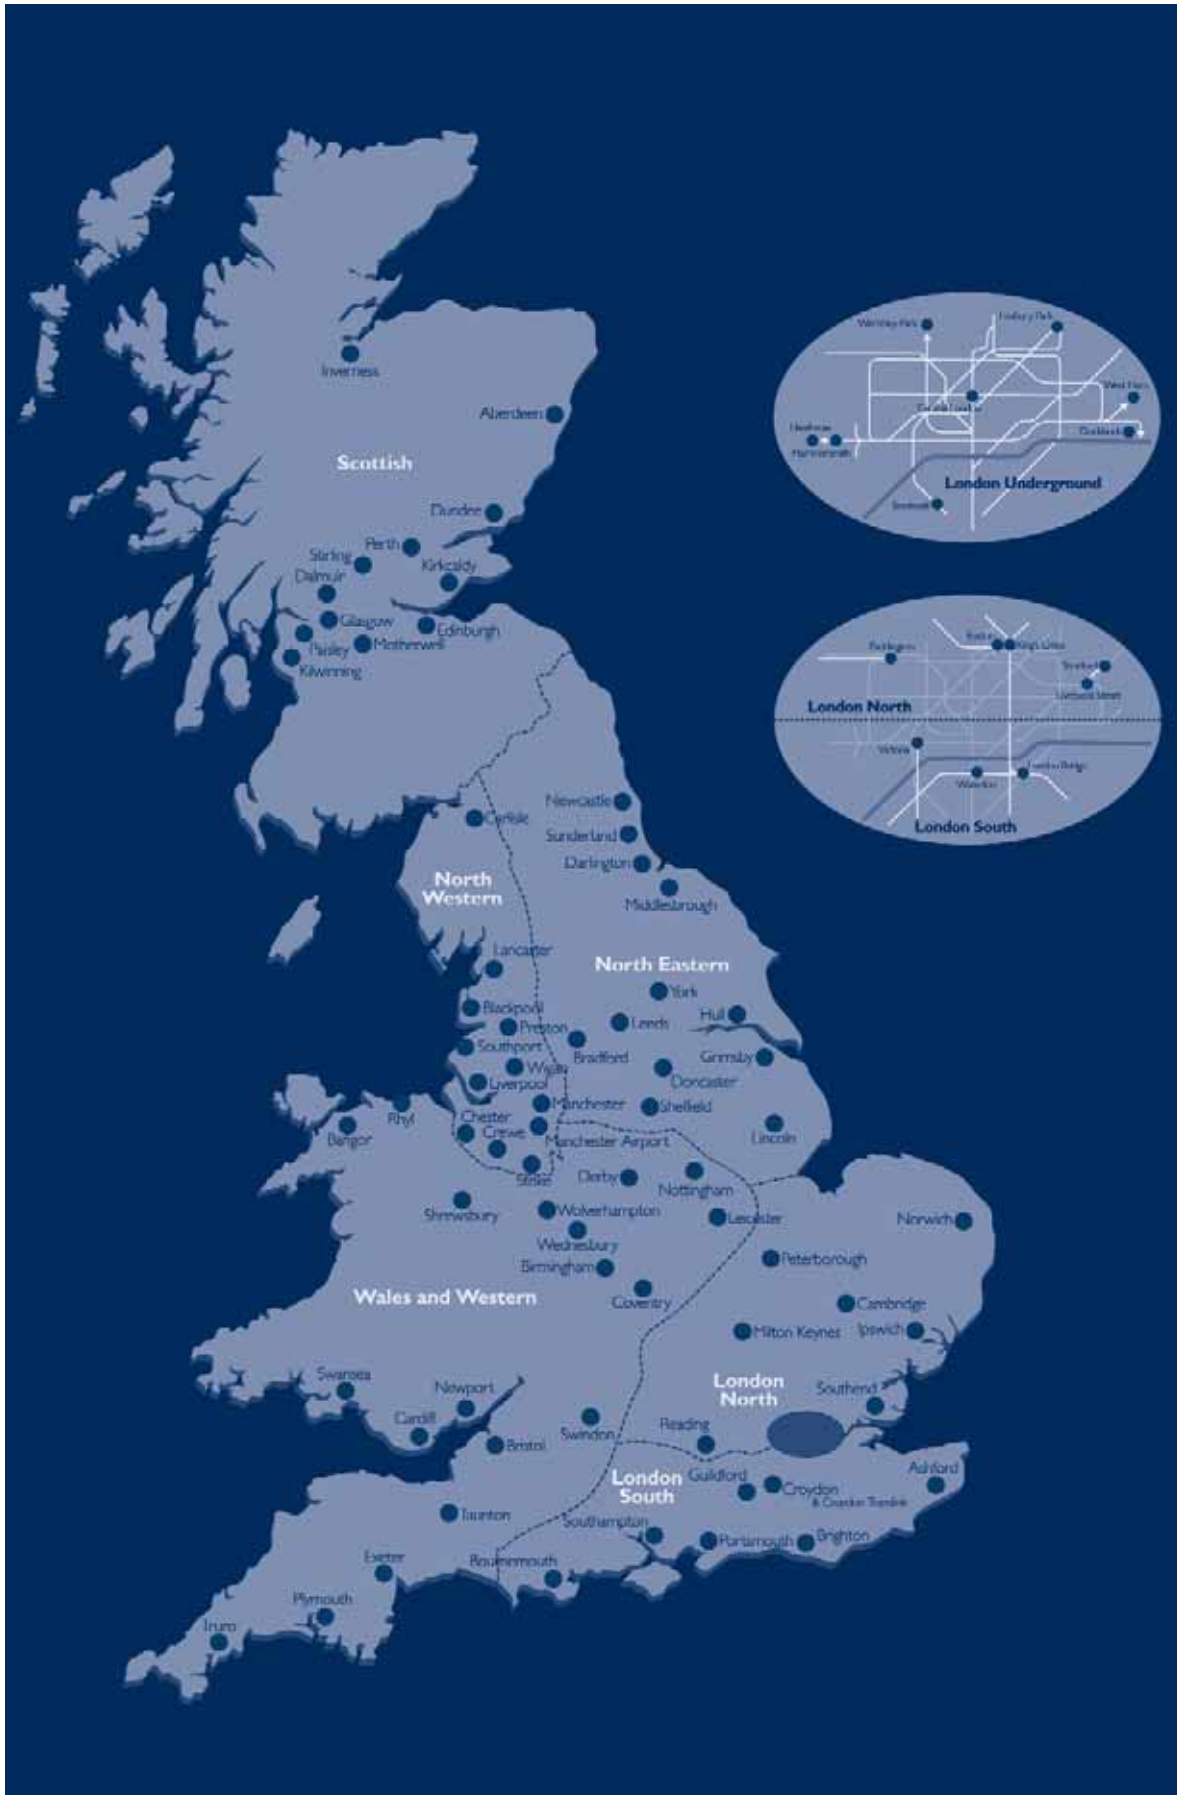

The crime statistics are broken down into the twelve crime categories now used by British Transport Police to reflect Home Office practice more closely. Crime groups are within two categories, notifiable offences - serious offences reported to the Home Office (crimes in Scotland) - and non-notifiable offences - less serious offences not reported to the Home Office (offences in Scotland). In Scotland, all crimes and offences are reported to the Scottish Office and published in their bulletin. They are also broken down for England, Wales and Scotland, and further, in England and Wales, to the Force's six geographical Areas (see map page 5). The London Underground Area includes Docklands Light Railway.

Crime statistics should be treated with caution. Dramatic fluctuations up or down can be misleading and, if misused, statistics can contribute to the fear of crime. Hundreds of millions of passenger journeys are made safely each year and the statistics should be viewed in that context.

The following points are given for guidance:

1. The Home Office introduced a National Crime Recording Standard (NCRS) that all police forces across England and Wales were required to adopt. BTP adopted this standard on the 1st April 2002. The basic principles of NCRS are that if on the balance of probability a crime has been committed it is recorded as a crime. The standard has made crime recording more victim focussed.
2. Crime statistics are not always accurate indicators of levels of crime. Police activity to target particular offences, changes in reporting patterns and other factors can affect crime figures.
3. Apparent anomalies, such as more crimes being detected than have been reported, are due to the fact that statistics reflect crimes and detections recorded in the period. Detections may relate to crimes reported in earlier periods.

Policing Plan Objectives & Targets 2004/05

PERFORMANCE 2004/2005			
Target Description	Target	Actual	Target Achieved
Robbery			
Number of offences not to exceed 2112 offences by 31 March 2005	2112	2081	✓
Forcewide robbery detection rate in 2004-05 to be 28%.	28%	31%	✓
BTP has met the National Policing Plan target of reducing robbery by 14% by 31 March 2005 using the baseline figures from 1999-2000.			
Violent Assaults			
Forcewide detection rate to be at least 37% by 31 March 2005.	37%	38%	✓
All assaults are classed as priority crime for BTP and are investigated against specific standards. This consistent and thorough approach has ensured success against this target.			
Staff Assaults			
At least 1034 detections for staff assaults by 31 March 2005.	1034	1059	✓
Success against this target is especially pleasing. BTP has started to use new innovative methods to assist in detecting such offences. The introduction of DNA kits for some staff has meant BTP has been able to gather more forensic evidence, which has led to more successful prosecutions.			
Hate Crime			
At least 481 offenders detected for hate crime offences by 31 March 2005.	481	636	✓
Throughout 2004-05 BTP has worked to raise awareness and the levels of reported hate crime. The success that BTP has had sends out a clear message that this type of crime will not be tolerated.			
Anti-social behaviour			
At least 127 offenders receiving a judicial disposal for drug supply offences by 31 March 2005.	127	156	✓
At least 488 offenders receiving a judicial disposal for graffiti offences by 31 March 2005.	488	569	✓
At least 6774 offenders receiving a judicial disposal for low-level disorder offences by 31 March 2005.	6774	7875	✓
All anti-social behaviour targets have been met. Resources have been used to target known 'hotspot' areas, and the increased use of Anti-Social Behaviour Orders has also helped to ensure success.			
Fatalities			
Overground: average time from receiving a report of a fatal incident to the conclusion of police activity that disrupts train movement on the line will not exceed 90 minutes.	90	80	✓
London Underground BTP will complete its duties within the same period of time as other support agencies + 30 minutes.	0	100%	✓
It is the role of BTP to ensure that proper respect and dignity for the deceased are paramount in dealing with an event that may be a crime scene or a tragic accident. The needs of the rail industry and the travelling public must also be taken into account. BTP has successfully achieved this difficult balance.			

PERFORMANCE 2004/2005 CONTINUED

Target Description	Target	Actual	Target Achieved
Recruitment of Visible Ethnic Minority staff			
The number of visible ethnic minority staff to be no less than 5.1% of total police strength by 31 March 2005	5.1%	4.8%	x
The number of visible ethnic minority officers in specialist posts to be no less than 4.4% of total police strength in specialist posts by 31 March 2005	4.4%	2.8%	x
BTP has not achieved its two targets in this area, although 9.5% of all officers recruited last year were from visible ethnic minorities. A more focussed recruitment strategy in 2005-06, which will include a national advertising campaign and target publications, careers fairs and recruitment days will seek to further increase the number of officers from under-represented groups.			
Recruitment of female staff			
The number of female officers to be no less than 14.5% of total police officer strength by 31 March 2005.	14.5%	14.3%	x
The number of female officers in specialist posts to be no less than 12.8% of total police officer strength in specialist posts by 31 March 2005.	12.8%	13.3%	✓
BTP has reached its target in relation to female representation in specialist posts, but has narrowly missed its target for overall representation. However, 16.1% of all recruits last year were female, and a targeted strategy this year will seek to increase female representation within BTP.
