

**Freedom of Information request 01/FOI/24/2676**  
**We received your request on the 06/06/2024.**

### **Request**

**You asked us:**

**I just want a single percentage please: The percentage of the total crime reported to British Transport Police that is solved, prosecuted or resolved ? For the latest 12-month period available please and for the whole of BTP's jurisdiction**

***We have handled your request under the Freedom of Information Act (FOIA)***

### **Our response:**

The following is taken from the [British Transport Police Fund Annual Report and Accounts](#) for year ending 31<sup>st</sup> March 2023, which is the latest published at present.

*There was a 30% increase in the number of notifiable crimes recorded by BTP in 2022/23 compared to the previous year (from 51,847 to 67,625) and a 1% increase in the number of incidents of anti-social behaviour recorded (from 30,636 to 30,838). The number of crimes per million passenger journeys reduced from 27.4 in 2021/22 to 24.4 for 2022/23. This is in the context of a continued rise in the number of passenger rail journeys since the outbreak of the COVID-19 pandemic. Provisional statistics from the Office of Rail and Road (ORR) show that that there was a 46% increase in the number of passenger rail journeys in 2022/23 compared to 2021/22.*

*BTP continually seeks to improve judicial outcomes. In 2022/23, BTP solved 9,336 notifiable crimes, which was 20% more than in 2021/22 (7,808). However, the 30% increase in the number of crimes recorded means that the solved rate reduced slightly from 15.1% to 13.8%.*
