Freedom of Information request ref 01/FOI/26/4402
We received your request on the 13/08/2026

Request

You asked us:

Under the Freedom of Information Act 2000, I request the following recorded information for the most recent three complete calendar years available (or financial years if that is how the data is held), together with year-to-date figures where available:

For the following specific sexual offences only:

- **Rape (all Home Office offence codes relating to rape, including rape of a female aged 16 or over, rape of a male aged 16 or over, rape of a female child under 16, rape of a male child under 16, and rape of a female child under 13 / male child under 13 where recorded separately)**
- **Assault by penetration**
- **Sexual assault (where recorded as a distinct category from the above)**
- **Please provide, for each of the above offence groups:**

Number of recorded crimes
Number of arrests
Number of charges, summonses, or equivalent positive outcomes resulting in court proceedings broken down by the nationality of the suspect/offender.

Where a full nationality breakdown is not held or would exceed the cost limit, a binary split between "UK national" and "foreign national / non-UK national" will suffice.

I would prefer the data in spreadsheet format (Excel or CSV), with separate columns or tables for each year and each offence category.

If the full nationality breakdown engages section 12 (cost limit), please supply the UK / foreign-national split and advise what refinement would bring the request within the appropriate limit. If any element is considered exempt, please cite the specific exemption and explain why it applies.

We have handled your request under the Freedom of Information Act (FOIA)

Our response:

Please find both an attached Excel spreadsheet and data tables below:

Please note:

- The data was extracted following a search of the force records management system, Niche.
- Home Office offence codes apply to England & Wales only. BTP's crime recording jurisdiction also extends into Scotland.
- Different crime outcomes apply in Scotland compared to England & Wales. Outcomes 1 to 22 apply in England & Wales. Outcomes DET1 to DET10 apply in Scotland.
- A single crime may have no, one or multiple persons linked to it as a suspect. As such, we have returned the nationality of the first suspect only.
- Dual nationals have been simplified to their first nationality also, in order to prevent individuals being identified.
- Police are required to record crime even with imperfect information. Some people do not wish to share their personal demographics with police and so often, nationality is not shared and is therefore not recorded.
- Victim and suspect nationalities are not a required field that are completed in every case.
- Being linked to a crime as a suspect is not an indicator of guilt.
- A 'Stats Status' of 'NEW' refers to new investigations.

Recorded I	BTP Crime	FOI Crime	BTP Crime	Stats Statu	Count Crin	Linking Arr	First Suspe	First Suspect Foreign Nationality (disregarding dual nationals)
